

An exciting new initiative from award winning, Cornish, social enterprise ReZolve. The Bike Hub will offer people in Cornwall the opportunity to think about their health, the environment, to learn new skills and find a job.

We are offering a social space to learn about cycle maintenance and mechanics, to work towards qualifications, and learn new cycling skills. There will also be opportunities to learn about other related jobs within the industry such as retail, marketing, administration and warehousing.

Bike Hub recruits will use new found skills to recondition bikes, helping us to provide affordable bikes for the local community and to cut down on waste. Plus they will be involved in providing servicing, a bike set up service, maintenance classes and group rides for members of the local community.

From Humble Beginnings...

Every fantastic idea has to start somewhere and so we are setting up our first workshop in our warehouse and hope to transform a dusty unused mezzanine into a thriving bike workshop, which doubles as a hang out for our recruits. But our plans don't stop there! One day we'd like to open a second bike hub which offers all the same services but through a community based cafe, helping us to spread the cycling bug even further...but we could do with some help!

GET INVOLVED

We're looking for individuals, community groups and local businesses to join the Bike Hub and help make this project a success.

We are starting from scratch and so you could help us to develop the project with your ideas and enthusiasm.

You might have current cycle maintenance skills or are an experienced rider and want to help us mentor Bike Hub recruits.

You might be out of work but interested in developing skills to find a job in the cycling industry. Or maybe you just love cycling and want to find out what we are all about.

Perhaps you are a local or bike based business or organisation which would like to link up with or support the project. Or maybe you run a youth project and want to tell us about someone would benefit from being involved.

WHAT WE CAN OFFER BIKE HUB RECRUITS

- A friendly, social space to meet new friends and find out everything that you ever wanted to know about bikes and cycling.
- The chance to get recognised qualifications to help find work in the cycle industry.
- Work experience so that you can find out what job is right for you.
- The chance to learn new bike skills and go out on group rides.
- Support in finding a job, making applications and preparing for employment.
- A chance to help us develop the Bike Hub concept

A BIT ABOUT US

The Bike Hub is managed by ReZolve, a social enterprise that has been operating in Cornwall since 1997. We run projects that all work towards our vision of creating a society without waste; not just the waste in our bins, but also the waste of natural resources, energy and the wasted potential within our communities.

We are a respected training provider within the county and have loads of experience in running projects which take unwanted items and turn them into something of value.

Our Bike Guru (aka Shane Arthur) will be running the Bike Hub and working with our recruits. With over ten years in the forces as a PT instructor, Shane has also run successful sports programmes across the country. Shane is a self confessed bike nut and qualified cycle engineer who is full of enthusiasm to get this project up and running.
